

MICROSOFT OEM SYSTEM BUILDER LICENSE FOR MICROSOFT® WINDOWS LIVE™ ONECARE™
(Visit www.microsoft.com/oem for additional OEM system builder information.)

1. AUTHORIZED DISTRIBUTION AND ACCEPTANCE

Distribution of individual software licenses contained in this Microsoft System Builder Pack ("package") is not authorized unless you accept this license. You accept this license when you open this package. By accepting this license, you agree that you are a system builder. If you do not open this package, you may deliver it to another system builder. "System builder" means an original equipment manufacturer, an assembler, refurbisher, or preinstaller of software on computer systems. "Distribution" and "distribute" means the point in time when a fully assembled computer system leaves the control of system builder. A "fully assembled computer system" means a computer system consisting of at least a central processing unit, a motherboard, a hard drive (internally mounted (Solid State) NAND and/or internally mounted revolving magnetic-based hard drive), a power supply, and a case. If you choose not to accept this license, promptly return the unopened package to your distributor. Individual software licenses cannot be returned after this package is opened.

2. PARTIES

This license is granted to you by Microsoft Licensing, GP ("MLGP"), a Nevada general partnership, unless you are located in Europe, Africa, or the Middle East (for a complete list of countries, consult www.microsoft.com/oem/sbllicense), in which case this license is granted by Microsoft Ireland Operations Limited ("MIOL"), an Irish company. The terms "we," "our," or "Microsoft" are used below to mean either MLGP or MIOL, as appropriate.

3. LIMITED LICENSE

3.1 This is a limited, nonexclusive license to distribute this unopened package, and/or the individual software licenses contained inside this package. "Individual software license" means any individual software license that comes inside this package, including software media, documentation, certificates of authenticity, end user license agreements, and security devices. The individual software licenses are each for one year subscriptions to Microsoft Windows Live OneCare, a service maintained and supported by Microsoft.

3.2 OneCare is available in certain countries. <http://oem.microsoft.com/onecare> lists those countries ("Countries"). You may only deliver this unopened package or the individual software licenses within the Countries located in your territory. <http://microsoft.com/oem/sbllicense/territory> specifies your territory.

4. SOFTWARE DISTRIBUTION

4.1 We grant you a nonexclusive right to distribute an individual software license only with a fully assembled computer system.

4.2 Each individual software license must be distributed pursuant to the end user license agreement ("EULA") that accompanies the individual software license. Under the terms of the EULA, Microsoft Corporation, or one of its affiliates, as applicable, is the licensor.

5. PREINSTALLATION REQUIREMENT

When you distribute an individual software license, you must preinstall it on the fully assembled computer system's hard drive using the OEM Preinstallation Kit ("OPK") provided in this package or otherwise made available by us. You may use the information, tools, and materials contained in the OPK solely for the purposes of preinstalling the individual software license in accordance with the OPK. For a list of available OPKs, information about using OEM preinstallation tools, OPK support, and how to obtain OPKs, see www.microsoft.com/oem/sbllicense/OPK. Preinstallation is limited to one copy of each individual software license. You may not copy or modify the OPK or OPK instructions. You may not distribute the OPK or OPK instructions to an end user.

6. END-USER SUPPORT

End-user support will be provided by Microsoft Corporation, or one of its affiliates.

7. DISCLAIMER OF ALL WARRANTIES

Unless mandatory under applicable law despite this provision, Microsoft, its affiliates, and their distributors (and their suppliers) disclaim and exclude all warranties, conditions, and representations (express or implied, by statute or otherwise) in relation to the individual software licenses, including without limitation, warranties and conditions of title, merchantability, satisfactory quality, noninfringement, fitness for a particular purpose, or any implied warranty or condition arising from course of dealing or usage of trade.

8. LIMITATION OF LIABILITY

You agree that Microsoft, its affiliates, and their distributors (and their suppliers) will not be liable for any damages (including any caused by negligence) related to this license or any transaction contemplated herein, including for any consequential, incidental, indirect, economic, or punitive damages even if Microsoft, its affiliates, distributors (or their suppliers) have been advised of the possibility of such damages. You acknowledge and agree that this limitation of liability shall apply even if any remedies fail of their essential purpose. Your and our total liability for direct damages related to this license or any transaction contemplated herein will be limited to 100% of the amount actually paid by you for this package.

9. TRADEMARK RIGHTS

You agree to comply with all trademark guidelines found at www.microsoft.com/mscorp/ip/trademarks/oemguide.asp.

10. EXPORT RESTRICTIONS

You acknowledge that the individual software licenses are subject to U.S. export jurisdiction. You agree to comply with all applicable international and national laws that apply to the individual software licenses, including the U.S. Export Administration Regulations, as well as end-user, end-use, and destination restrictions issued by the U.S. and other governments. For additional information, see www.microsoft.com/exporting.

11. LICENSE COMPLIANCE

You must not engage or participate with any third party in the unauthorized manufacture, duplication, delivery, transfer, or use of counterfeit, pirated, or illegal software and you must not otherwise infringe any of our other intellectual property rights.

12. END USER NOTICES

12.1 Because the individual software license may include technological measures for copy protection, you must provide the following or substantially similar notice in a clear and conspicuous manner to end users before their purchase of the software (e.g., in advertisements, packaging, or point of purchase materials):

Certain Microsoft software product(s) included with this computer may use technological measures for copy protection. In such event, you will have limited use of the product if you do not fully comply with the product activation procedures. Product activation procedures and Microsoft's privacy policy will be detailed during initial launch of the product, or upon certain reinstallations of the software product(s), or reconfigurations of this computer, and may be completed by Internet or telephone (toll charges may apply).

12.2 Internet access is required to use the individual software license. Company should include the following, or substantially similar notice, in a clear and conspicuous manner to End Users before they buy the individual software license (e.g., in advertisements, packing, or point of purchase materials): "Internet access is required for Microsoft® Windows Live™ OneCare™ services. Toll charges may apply."

13. MISCELLANEOUS

13.1 Unless otherwise expressly authorized by Microsoft, you must not advertise, provide a separate price for, or otherwise market or distribute individual software licenses, or any part of them, as separate items from the fully assembled computer system; except to the extent necessary to advertise, set a price or fee, or otherwise market or distribute Microsoft software. Except as granted in this license, you may not use, run, distribute, copy, modify, display, repackage, or reassemble any individual software licenses, or any part of them.

13.2 You are solely responsible for all applicable taxes, fees, duties, and tariffs that may be levied in connection with this license and the ordering, delivering, and distributing of software under this license.

13.3 You may not reverse engineer, decompile, or disassemble any individual software license except and only to the extent that it is expressly permitted by applicable law notwithstanding this provision. All rights not expressly granted are reserved.

13.4 If a court holds any provision of this license to be illegal, invalid, or unenforceable, the remaining provisions will remain in full force and effect and the parties will amend the license to give effect to the stricken clause to the maximum extent possible.

13.5 If the contracting party to this license is MLGP, the laws of the State of Washington, U.S.A. govern this license. If the contracting party to this license is MIOL, the laws of Ireland govern this license. The 1980 United Nations Convention on Contracts for the International Sale of Goods and its related instruments will not apply to this license.

13.6 Nothing in this license restricts you from supporting, promoting, distributing, or using non-Microsoft software or hardware.

13.7 Microsoft may assign this license at any time to an affiliated company.

13.8 This license does not create a "technology transfer" agreement, as defined by applicable law because (a) the technology (including any software) made available under this license is not an integrated part of a technology chain for production or management purposes and (b) the technology (including any software) will have its own technology license. You will not help yourself out as our technology recipient and will not attempt to identify us as a technology provider under this license.
